

The Servant Leader Accelerator™

Frequently Asked Questions

What is The Servant Leader Accelerator™?

The Servant Leader Accelerator™ is a Biblically grounded, Spirit-empowered leadership and personal formation experience designed for professional and high-capacity men who want greater alignment between **who they are, how they lead, how they relate, and what they are building.**

The guiding principle is: **Alignment Before Achievement.™**

Rather than beginning with performance, productivity, or another list of goals, the Accelerator works from the inside out - addressing identity, discernment, emotional health, beliefs, relationships, spiritual formation, leadership, execution, and ultimately legacy.

Who is The Servant Leader Accelerator™ for?

SLA is designed for men carrying meaningful responsibility in business, ministry, family, entrepreneurship, the creative industries, community leadership, or other spheres of influence.

Some men enter because something isn't working. Others are succeeding externally but recognize that their **internal development needs to catch up with their external responsibility.**

You don't have to be in crisis to accelerate.

What is the Transformation Roadmap?

While every man's circumstances are different, the Accelerator follows a developmental progression:

Identity → Discernment → Healing → Renewal → Leadership → Execution → Legacy

We begin with the man before focusing on the mission. That may include identifying limiting beliefs, examining emotional and relational patterns, strengthening spiritual awareness, developing healthier communication, clarifying purpose, and turning insight into intentional action.

How is this different from traditional life or executive coaching?

Traditional coaching often begins with a desired outcome: *What do you want to accomplish?* SLA asks another question first: **Who are you becoming while you accomplish it?**

Achievement, goals, discipline, and execution matter. But SLA integrates them with emotional intelligence, Relationship Intelligence, spiritual formation, self-awareness, relational health, servant leadership, and Biblical wisdom.

Success that costs you your character, relationships, spiritual health, or identity isn't the kind of acceleration we're pursuing.

How does LoveMaxxer™ Relationship Intelligence fit into SLA?

LoveMaxxer™ is the Relationship Intelligence methodology. The Servant Leader Accelerator™ is a formation pathway.

LoveMaxxer principles help men understand how beliefs, emotions, patterns, communication, and choices affect the people around them. SLA applies those principles within a broader process of developing the whole man - his leadership, spiritual formation, vocation, relationships, decision-making, purpose, and legacy.

What Are the Four Accelerator Levels?

What is Tier 1: Core?

Core - \$1,997 | 8 Weeks

Core is the complete foundational Servant Leader Accelerator™ experience and the recommended starting point for most men. It consists of **eight 60-minute private coaching sessions, typically one session per week.**

The eight-session journey works through:

- 1. Identity & Calling** - Who am I before what I accomplish?
- 2. Spiritual Discipline & Discernment** - Can I hear clearly enough to lead clearly?
- 3. Emotional Health & Healing** - What am I carrying into the rooms I lead?
- 4. Renewing the Mind** - What am I believing that is shaping how I'm living?
- 5. Strengths, Gifts & Leadership Identity** - What has actually been entrusted to me?
- 6. Decision Making & Execution** - How does an aligned man make difficult decisions?
- 7. Marketplace & Relational Leadership** - How does internal transformation change the way I lead and relate?
- 8. Legacy & Commissioning** - What happens after the Accelerator ends?

Core also includes the Servant Leader Accelerator™ workbook, assessments and reflection exercises, accountability, Leadership Scorecard, Personal Leadership Covenant, and development of a **90-Day Kingdom Impact Blueprint.**

Core = Formation.

What is Tier 2: Executive?

Executive - \$4,997 | 90 Days

Executive incorporates the SLA foundational framework but provides greater customization around the man's actual leadership environment, responsibilities, relationships, and current decisions.

The engagement includes **ten 60-minute private coaching sessions across approximately 90 days.** The foundational sessions are customized around the participant's circumstances rather than treated simply as a standardized curriculum.

Two additional application sessions extend the work:

Leadership Application Review - examining what happened when the participant applied his development to actual leadership, relationships, decisions, conversations, and responsibilities.

Executive Alignment & 90-Day Strategy - evaluating progress and developing the next-stage leadership and Kingdom Impact strategy.

Executive also includes expanded assessments, a customized Transformation Roadmap, individualized accountability, and **limited between-session coaching support during designated SLA Office Hours**. The purpose of between-session support is to address brief application or accountability questions - not to create additional unscheduled coaching sessions or 24/7 access.

Executive = Formation + Application.

What is Tier 3: Elite?

Elite - \$10,000 | Six Months

Elite is designed for men who need enough time not only to understand new principles but to **live them, test them under real-world pressure, evaluate the results, and continue developing**.

Months 1-2: Foundation

Eight 60-minute weekly private coaching sessions establish the customized SLA foundation.

Months 3-6: Integration

The cadence transitions to **two 60-minute private coaching sessions per month**, providing another eight sessions focused on implementation, accountability, leadership challenges, relationships, and ongoing development.

Elite also includes **four personalized 90-minute intensives**, generally scheduled during the integration phase. These aren't predetermined classroom modules. An intensive is built around a significant issue emerging from the participant's actual life - such as leadership or organizational challenges, Relationship Intelligence and difficult conversations, calling and discernment, major transitions or decisions, or purpose and legacy.

In total, Elite provides **16 regular private coaching sessions plus four 90-minute personalized intensives - 22 hours of scheduled private development across six months**. Enhanced between-session support is also available during designated SLA Office Hours.

Elite = Formation + Integration.

What is Tier 4: Founder's Circle?

Founder's Circle - \$15,000-\$25,000+ | 12 Months

Founder's Circle is the highest-touch Servant Leader Accelerator™ engagement and is designed for a limited number of high-capacity leaders seeking sustained formation and advisory support. It is **application-based and capacity-limited**.

The first two months establish the foundation through **eight 60-minute weekly private sessions** and development of an individualized Annual Leadership & Legacy Roadmap.

During Months 3-12, the relationship transitions into an advisory cadence of **two 60-minute private sessions per month**, providing another 20 advisory conversations. These sessions can address what is actually happening in the leader's life - leadership, vocation, relationships, faith, organizational responsibility, calling, conflict, transition, major decisions, purpose, and legacy.

Founder's Circle also includes **four two-hour Quarterly Alignment Intensives**:

Alignment - Who am I becoming?

Leadership - How am I leading?

Impact - What am I building, and whom is it serving?

Legacy - What remains, and what does the next season require?

The final intensive can serve as the formal **Legacy & Kingdom Impact Review**, evaluating the year and establishing direction for what comes next. Founder's Circle participants receive SLA's highest level of between-session access within established office-hour boundaries. It is a high-proximity relationship, but it does **not** include 24/7 or emergency access.

Founder's Circle = Formation + Advisory + Legacy.

Why does the investment increase between tiers?

The higher tiers don't contain "better" secret material that is withheld from Core participants. **Core contains the complete foundational SLA methodology.**

The investment increases as the relationship adds **duration, customization, proximity, application, observation, integration, intensives, and advisory access.**

Core - Learn and establish the foundation.

Executive - Apply it to real leadership.

Elite - Live it long enough to integrate it.

Founder's Circle - Build and lead with sustained advisory partnership.

A higher investment therefore doesn't simply purchase more hours. It purchases a different depth and duration of developmental relationship.

Do I have to start with Core?

Not necessarily. Core is the natural starting point for many men, but a leader navigating significant responsibility, organizational complexity, transition, or a particularly demanding season may be better served by Executive or Elite.

Founder's Circle is selective and application-based. The Discovery Conversation helps determine the appropriate level of engagement rather than automatically directing someone toward the most expensive program.

What does between-session support mean?

Between-session coaching support is available at the Executive, Elite, and Founder's Circle levels within **designated SLA Office Hours.**

Current availability includes:

Monday-Wednesday: 1:45-2:15 PM

Thursday: after 6:00 PM

Friday: designated office hours

Sunday: evening office hours

The amount and method of access varies by engagement level and is established at the beginning of the coaching relationship. Between-session support is intended for brief questions, accountability, decision clarification, or application of coaching work. It does not constitute emergency support, unlimited availability, or additional unscheduled coaching sessions.

Core participants may communicate between sessions for scheduling and administrative needs.

What exactly is a personalized intensive?

Personalized intensives are extended private sessions included in the Elite and Founder's Circle experiences. Unlike the structured Core curriculum, an intensive is designed around a significant issue the participant is **actually navigating at that point in his life.**

For example, a participant preparing for a consequential conversation might use an intensive to identify emotional and relational dynamics, examine his assumptions, consider Biblical principles, role-play the conversation, and develop a specific plan for how he will approach it.

Another participant might use an intensive to discern a major career transition, work through an organizational leadership challenge, or begin developing his legacy strategy.

Elite intensives are **90 minutes**. Founder's Circle Quarterly Alignment Intensives are **two hours**.

Is SLA therapy or counseling?

No. The Servant Leader Accelerator™ is coaching, leadership development, and faith-based personal formation. It is not psychotherapy, mental-health treatment, medical care, or licensed clinical counseling.

SLA may explore beliefs, emotions, relationships, patterns, and past experiences because these can influence how a man leads and relates. When something requires care beyond the appropriate scope of coaching, a participant may be encouraged to work with a qualified therapist, physician, pastor, or other appropriate professional.

Do I have to be a Christian?

SLA is explicitly rooted in a Christian worldview. Prayer, Scripture, Biblical wisdom, spiritual discernment, and the servant-leadership model of Jesus may be incorporated throughout the experience.

You don't have to arrive with everything spiritually figured out. But participants should understand that faith isn't an optional add-on to the methodology - it is part of its foundation.

What does "Spirit-empowered" mean?

It means we don't assume every leadership or life problem can be solved with another productivity system. The Accelerator intentionally creates room for prayer, Scripture, discernment, conviction, wisdom, and attentiveness to what God may be doing in a man's life.

Strategy matters. So does discernment.

What results should I expect?

SLA is designed to develop greater self-awareness, emotional intelligence, Relationship Intelligence, communication, spiritual alignment, leadership presence, decision-making, accountability, relational health, purpose, and execution.

It does not promise a particular financial, professional, relational, or spiritual outcome. **The Accelerator provides the framework, coaching, challenge, tools, and accountability. The participant has to do the work.**

Is everything discussed confidential?

The coaching relationship is intended to provide a private environment for candid conversation, reflection, and development, subject to the terms and limitations established in the participant coaching agreement. Those boundaries are reviewed before the engagement begins.

How much does The Servant Leader Accelerator™ cost?

The four current engagement levels are:

Core - \$1,997 | 8 weeks

Executive - \$4,997 | 90 days

Elite - \$10,000 | 6 months

Founder's Circle - \$15,000-\$25,000+ | 12 months

The objective isn't to place every man into the largest engagement. It's to identify the **right level of support for the work in front of him.**

How do I get started?

Start with a **Discovery Conversation**. It's an opportunity to discuss where you are, what you're carrying, what you're building, what may need to change, and whether The Servant Leader Accelerator™ is the appropriate environment for that work.

There is no need to pretend everything is falling apart. And there's no need to pretend everything is fine.

Come ready for an honest conversation about what's next.

Alignment Before Achievement.™
