LOVE SCENES™

Frequently Asked Questions

More than a memory. A meaning made cinematic.

LOVE SCENES™ doesn't simply retell your milestones. Ben Morris discovers what you want someone to understand, then transforms that meaning into an original screenplay and cinematic story created exclusively for them.

THE EXPERIENCE

What is a LOVE SCENES™ gift?

It is a bespoke cinematic expression built from your relationship, memories, observations, and heart. Rather than placing photos and milestones into a standard template, Ben identifies the deeper message you want the recipient to feel and understand, then develops an original screenplay and cinematic story around it.

How is this different from a slideshow or tribute video?

A slideshow documents what happened. LOVE SCENES™ interprets what it meant. Your details become the emotional foundation for an original narrative, visual world, and movie-style presentation created for one specific person.

Is a custom movie poster included?

Yes. Your LOVE SCENES™ experience includes a personalized movie poster designed to complement the cinematic story. It gives the recipient a keepsake that feels like the artwork for their own film.

Who can receive a LOVE SCENES™ gift?

A spouse, partner, family member, close friend, mentor, or another meaningful person in your life. The essential ingredient is not the occasion; it is the truth you want that person to understand.

HOW IT COMES TO LIFE

What will I be asked to provide?

You will complete a guided questionnaire about the recipient: the qualities you treasure, physical attributes you find attractive or endearing, meaningful memories, defining experiences, acts of care, and the ways this person has affected your life. Specific details help Ben see the recipient through your eyes.

What if I am not good with words?

That is exactly why the process is guided. You do not need to write beautifully or know how to structure a story. Give honest answers, concrete examples, and sensory details. Ben's role is to discover the meaning within them and shape it cinematically.

What kinds of details are most helpful?

Small, vivid details often carry the most emotion: an expression, habit, phrase, private joke, shared place, difficult season, unexpected kindness, or moment when you knew the relationship had changed you. Explain not only what happened, but why it mattered.

Can I include photographs, personal references, or favorite places?

Yes, when requested or appropriate for the selected concept. They may help establish appearance, atmosphere, shared history, and emotional authenticity. Any requested materials and how they may be used will be discussed during the creative process.

Can a favorite song inspire the story?

Yes. You may share songs as creative or emotional references. Copyrighted music or lyrics cannot automatically be reproduced in the finished work; any music used must be original, properly licensed, or otherwise legally permitted.

Will I collaborate with Ben?

Yes. LOVE SCENES™ is personalized, so thoughtful communication is part of the process. Ben may ask follow-up questions to uncover the emotional truth, clarify a memory, or strengthen the story's meaning.

How long does the process take?

Plan for approximately two to three weeks after all requested information and materials have been received. Timing may vary with the scope, complexity, revision needs, and current production schedule. If the gift is for a fixed date, begin as early as possible.

Can I request changes?

The creative process includes an agreed opportunity to confirm key personal details and address appropriate revisions. The exact review process and number of revisions are established with your selected package before production begins.

DELIVERY, PRIVACY & PLANNING**How will the finished gift be delivered?**

Your final cinematic story and personalized movie poster are delivered digitally in the formats specified for your package. Any additional formats, physical products, or presentation support should be arranged in advance.

Will the recipient know I commissioned it?

That is your choice. The story can be presented as a surprise, revealed during a special occasion, or shared privately. Let Ben know how you plan to present it so the creative approach can support the moment.

Is my personal information kept private?

Your memories and materials are treated with care and used to create your commissioned work. LOVE SCENES™ will not publicly share the finished project or identifying personal content without permission, except as required to provide the service or by law.

What occasions are a good fit?

Anniversaries, birthdays, engagements, weddings, reconciliations, milestone celebrations, memorials, expressions of gratitude, or an ordinary day when someone needs to understand what they mean to you.

How much does a LOVE SCENES™ gift cost?

LOVE SCENES™ is a bespoke creative service, so pricing reflects the selected scope and production needs. Your project details, deliverables, timeline, and payment terms will be confirmed before creative work begins.

How do I begin?

Start with the LOVE SCENES™ inquiry and questionnaire. Think less about producing polished answers and more about telling the truth in detail: what you notice, what you remember, what changed, and what you most want the recipient to understand.

The most powerful LOVE SCENES™ begin with one question:**What do you want this person to finally understand?**
